Department Economy, Transport and Environment

Date of Assessment 21 Aug 2017

Description of Service / Policy

The Economic Development function plays a significant and valuable role in supporting the economy and prosperity of Hampshire. Key priorities include:

- Business Growth supporting indigenous growth and enabling the attraction of inward investment into Hampshire, with a specific focus on key sectors including aerospace & defence, marine & maritime, financial services and digital;
- Regeneration and Development facilitating transformational regeneration projects such as the Solent Enterprise Zone (Daedalus) and the new Farnborough International Conference and Exhibition Centre;
- Tourism being a key sector for Hampshire, the County Council is the primary tourism promotion organisation for the county, through the Visit Hampshire service. Geographical impact*

Description of proposed change

Reduce department-wide staff revenue costs whilst still delivering good quality core services for customers. The new Operating Model will introduce new ways of working, including digital approaches, across all of the Department's services. This will primarily impact on staff, the precise nature of which is to be confirmed but likely to be medium. It remains too early at this stage to determine what impact there will be on service users and partners. Further equalities impact assessments will be carried out as appropriate when proposals become clearer, including where necessary taking into consideration the profile of staff in affected areas to determine likely impact upon people with protected characteristics..

Engagement and consultation

Has engagement or Planned consultation been

carried out?

No specific consultation has been carried out on this proposal. However, the County Council carried out a major consultation exercise over the Summer of 2017 on a range of options for finding further budget savings, including increasing council tax, using reserves and making changes to the way services are delivered, which may mean reducing or withdrawing services, or indeed making revised charges. The outcome of this consultation will be reported to Cabinet in October 2017.

When decisions are made to pursue the options, further specific consultation will be carried out with stakeholders on the detailed options where required.

Impacts of the proposed change

Neutrality Statement

At present, there is no reason to think that emerging proposals will result in disproportionate impacts upon people with protected characteristics. However, as proposals develop, further impact assessments will be undertaken as appropriate to inform decision making, and where necessary this will involve reference to staff profiles to determine the impact

upon people with protected characteristics.

Additional Information

The savings proposals for Economic Development have been deliberately designed so as to absolutely minimise the impact on our effectiveness to deliver services which support the economy in Hampshire. This will be primarily achieved through greater pooling of resources with partner organisations, and continued focus on those activities which have maximum positive economic impact.
