1. The decision:

- 1.1 That the Executive Member for Environment and Transport approves the commencement of design work on:
- Fleet Station Roundabout;
 - Windy Gap Junction (A323 Fleet Road/Aldershot Road);
 - Elvetham Heath Double Roundabouts; and
 - The Beacon Hill Road Corridor study
- in order to determine the financial costs and assess the deliverability of these schemes.

2. Reason for the decision:

- 2.1 The development at the Queen Elizabeth Barracks (QEB) in Church Crookham resulted in a Transport contribution of just under £3million secured by a Section 106 Agreement dated 17 November 2011 ("the Section 106 Agreement"). This was taken in order to mitigate the transport impacts of the development. The section 106 agreement funding is time limited, and it is now considered to be timely to identify and further develop schemes. This report seeks approval to commence design work on four prioritised schemes that might potentially use this funding.

3. Other options considered and rejected:

- 3.1 The contribution secured by the Section 106 Agreement is time limited. Failure to develop and identify a preferred scheme or schemes for implementation may result in the funding having to be handed back to the developer.
- 3.2 Schemes previously proposed by the Steering Group can broadly be categorised as accessibility, traffic management, and capacity improvement schemes. The proposals were discounted by the County Council for the following reasons:
- They were not expected to mitigate the impacts of the development;

- They were not in accordance with the County Council's Traffic Management Policy; and
- There were significant obstacles to delivery (e.g. listed status).

4. Conflicts of interest:

4.1 Conflicts of interest declared by the decision-maker:

4.2 Conflicts of interest declared by other Executive Members consulted:

5. Dispensation granted by the Conduct Advisory Panel: none.

6. Reason(s) for the matter being dealt with if urgent: not applicable.
