Local Government Finance Settlement – Key Issues

Provisional Local Government Finance Settlement 2022/23

- A one year provisional Finance Settlement for 2022/23 was announced on 16 December but final figures will not be confirmed by the Government until late January or early February
- Future year's funding allocations will be determined following the outcome of a consultation on the existing local government funding formula to be carried out in Spring 2022
- Key items include:
 - **£11.0m** additional social care grant distributed based on the existing adult's funding formula
 - **£8.3m** 2022/23 Services Grant. The £822m national pot will be redistributed based on the new funding formula from 2023/24.
 - A **£3.6m** uplift in business rates compensation grants

Provisional Local Government Finance Settlement 2022/23

- An initial allocation of **£3.2m** from the **Market Sustainability and Fair Cost of Care Fund**. This is part of the government's package to support the recently announced social care reforms, providing funding for local authorities to:
 - Work with care providers to prepare local care markets for reform
 - Move towards paying providers a fair cost of care
- A **£0.9m** inflationary uplift for the Improved Better Care Fund
- Continuation of the New Homes Bonus for a further year, worth **£3.5m** to the Council in 2022/23
- **Total additional funding of £26.5m**
- **2.99% increase in Council tax, 1% lower than the assumption held within the MTFS. Estimated increase of £29.7m rather than previously assumed £36.7m.**
- **Total increase in core spending power of 6.3%**

County Council context

Increasing financial pressure:

- **Seven** successive two-year **change programmes** implemented since 2010 to deliver cumulative savings of **£640m**
- As at December 2021 the Council is working to achieve **savings of £127m** including **£47m** of slipped Tt2019 and Tt2021 savings and a further **£80m** SP2023 savings required by 2023/24.
- **Inflation** has risen to the highest level since 2011, with CPI reaching **5.1%** in November 2021
- Additional National Insurance costs of **£2.3m** for internal staff and associated increases to contractual costs
- Significant pressures are building in adult social care with **market prices** now around **16-18% higher** than the Council's existing provision, which will create an **additional budget pressure in 2022/23**
- 2022/23 is an interim year within the context of the MTFS with the budget being balanced using **£40.2m from the budget bridging reserve**. It is now forecast that a significantly bigger draw from the reserve will be required.

Key CCBS Departmental Challenges and Priorities

Importance of Income

- CCBS overall cash limited services 62% funded from income & recharges (C&C services 51%)
- Challenges
 - Maintain existing levels
 - Build sustainable new income (SP2023)

Impact of Covid-19

- Financial impact and recovery has been mixed
- Longer term impact not yet fully clear

Climate Change

- Cabinet funding and approved programme (£1.2m)
- Projects already underway
- All aspects of CCBS activity

Recruitment and retention

- Wide-ranging impact
- Lower-paid roles (e.g. Country Parks catering)
- Will need creative solutions

Inflation

- Construction costs
- Energy
- General (November CPI 5.1%)
