

Open Your Door – a campaign to find new Foster Carers for children in Hampshire

Corporate Parenting Board

Why do we need a campaign?

Hampshire children need more foster carers:

- The number of children coming into care is increasing nationwide. Whilst HCC has bucked the trend with smaller increases through its sector-leading transformation programmes, since 2018 the number of children in the care of Hampshire County Council has grown by over 200 and is still rising. Meanwhile, the number of fostering households in the county has plateaued.
- The numbers just aren't adding up anymore and the need for more Foster Carers is becoming increasingly urgent.
- We need Foster Carers that reflect our population of children in care.
- We need to bring everyone together around a common goal with an end date to change the current direction.

How did we create the campaign?

Campaign built on research:

- Two studies were completed by our Insights and Engagement team with members of the public, HCC staff and foster carers.
- The first tested different concepts.
- The second tested four campaigns based on the selected concept.

What will success look like for the campaign?

By the end of 2023, we will have:

- Increased the number of new Foster Carers against our public goal through generating extra enquires.
- Highlighted the need for Foster Carers in the County and the sense of urgency now surrounding that need.
- Galvanised individuals from diverse backgrounds to consider fostering and celebrated their applicability to do so.
- Celebrated the reasons people become Foster Carers – for the benefit of foster children but also themselves and their communities.
