

COUNTY COUNCIL – 22 FEBRUARY 2024

ITEM 13: AMENDMENT TO NOTICE OF MOTION ON CLIMATE CHANGE AGENDA

Proposer: Councillor A Todd

Seconder: Councillor A Collett

In accordance with Standing Order 19.7:

In paragraph C, replace:

“Maintaining the County Council’s agreed commitment to be carbon neutral by 2050,”

With:

“Demonstrating a greater sense of urgency on this vital issue by bringing forward the target to be carbon neutral to 2040,”

In paragraph E, add after the words “annual climate change report”:

“enhancing the report to measure progress towards the net zero target as well as progress on individual projects”

So that the new paragraph E reads:

“Continuing to report annually through the annual climate change report, enhancing the report to measure progress towards the net zero target as well as progress on individual projects, utilising relevant indicators where appropriate and ensuring resources are directed and coordinated effectively.”

Add a new paragraph J:

“Benchmarking the Council’s programme against other County Councils making faster progress in decarbonisation and identifying approaches that can be reapplied.”
