The wider County Council context incorporating the need to reduce budgets by 19 percent, amounting to a saving requirement across the Council of approximately £140 million by 2019/20 was set out. It was explained that proposals in the report were for savings equal to approximately £3.661 million from CRC services and the individual proposals were presented to the Select Committee. The Director of CCBS also gave an overview of the Balancing the Budget public consultation feedback.

Following Members' questions, it was clarified that the CCBS department had existing partnerships with private organisations to facilitate service provision and that officers were continuing to look for opportunities, such as partnerships, to support the delivery of the Tto2019 proposals. It was confirmed that the department worked with Parish Councils and that the Hampshire Association of Local Councils was a useful forum to discuss the Tto2019 programme with other authorities. Members expressed their support for improving income generation as opposed to the removal of existing services. Discussion was held regarding possible options for generating additional revenue and the Committee were aware of the balance between any initial capital outlay and the return pay back period to ensure that any investment was worthwhile.
