31. **EDUCATIONAL OUTCOMES 2017 FOR CHILDREN AND YOUNG PEOPLE FROM DISADVANTAGED BACKGROUNDS IN HAMPSHIRE**

The Panel received the presentation from the Director of Children's Services regarding the educational performance of students from disadvantaged backgrounds and reviewed two case studies from local Headteachers who also attended to deliver presentations.

Members were informed of the Department for Education's definition of the disadvantaged category and some of the typical challenges faced by learners who fell within this category. The Panel also reviewed some statistics for Hampshire regarding the educational performance, by Key Stage, of learners from within the disadvantaged category and how Hampshire statistics compared to national figures. Influential factors were discussed in detail, such as the impact of cultural and social aspects and home and family environment. Further discussion was held regarding the interventions and support which both the schools and the County Council had implemented to promote inclusion and improved outcomes for learners from within the disadvantaged category.

Specifically, in response to Members' questions, it was confirmed that high quality teaching and learning, not necessarily reductions in class size, would have a significant positive impact for learners. This incorporated all aspects of teaching and learning, from the initial planning stage, to interactions within the classroom setting, through to monitoring and evaluating learning outcomes and providing valuable and meaningful feedback to learners to enable both their holistic and educational development.

RESOLVED:

That the Panel notes the content of the presentation.
