Executive Summary

11. This report sets out the proposals for the Universal Services Capital programme for 2022/23, 2023/24 and 2024/25, and seeks approval for their onward submission to Cabinet in February 2022.
12. This report brings together the two Capital programmes over this timeframe for the former Economy, Transport and Environment (ETE) and Communities, Culture and Business Services (CCBS) Departments, which from 1 January 2023 were brought together under the new Universal Services Directorate. These two separate programmes are included as Annex 1 and Annex 2 to this report.
13. This is a transitional arrangement, whilst the organisation structure is finalised and going forwards future Capital Programme reports for Universal Services will be presented as one consolidated report.

Contextual information

14. The new Universal Services Directorate came into force from 1 January 2023 and brings together the delivery of public-facing services universally available to all as well as internal services directly supporting these and other public-facing services such as Children's and Adult social care provision. The restructure also saw the creation of the Hampshire 2050 Directorate with the intention of providing a clear separation of 'strategic functions' from the more operational service delivery and planning within the public-facing Directorates. The former

ETE and CCBS Departments have been disbanded and their functions transferred to other Directorates including Universal Services.

15. As referenced within the Budget Setting and Provisional Cash Limits report taken to Cabinet on 13 December 2022, whilst the transition into the new corporate structure takes place, the two Capital programmes for the former ETE and CCBS Departments have been brought together under the Universal Services Directorate. However, the approval to spend in line with the County Council's financial regulation thresholds will be taken through the relevant Executive Members. This will predominantly affect the advantageous land programme (Hampshire 2050).
16. It should be noted that elements within the capital guidelines may need to be moved between directorates depending upon the finalisation of the organisational restructure, however the bottom-line total allocation will not change.

Finance

17. The detailed Capital Programme proposals are included as Annexes 1 and 2, which form the main body of this report, and summarised in Table 1 below.

Consultation and Equalities

18. Equalities impact assessments for the individual projects proposed in this report will be considered as part of the relevant project appraisals when seeking approval to spend.

Climate Change Impact Assessments

19. Hampshire County Council utilises two decision-making tools to assess the carbon emissions and resilience of its projects and decisions. These tools provide a clear, robust, and transparent way of assessing how projects, policies and initiatives contribute towards the County Council's climate change targets of being carbon neutral and resilient to the impacts of a 2°C temperature rise by 2050. This process ensures that climate change considerations are built into everything the Authority does.

Climate Change Adaptation

20. The climate change adaptation tool is not applicable because this is a financial report amending or proposing budgets for a number of individual projects or programmes, which are subject to assessment individually when project appraisals are developed.

Carbon Mitigation

21. The carbon mitigation tool is not applicable because this is a financial report amending or proposing budgets for a number of individual projects or programmes, which are subject to assessment individually when project appraisals are developed.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant characteristic connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

This is a financial report amending or proposing budgets for programmes and individual schemes. Changes or proposals for individual schemes will undertake their own specific consideration of equalities issues. The decisions in this report are financial, and mainly relate to in-house management of accounts, and therefore have a neutral impact on groups with protected characteristics.
