

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker:	Executive Member for Policy & Resources		
Date:	13 December 2018		
Title:	Residential Properties – Review of Rents in April 2019		
Report From:	Director of Culture, Communities and Business Services		
Contact name:	Chris Jelliffe		
Tel:	01962 846617	Email:	chris.jelliffe@hants.gov.uk

1. Recommendation

- 1.1. That the Executive Member for Policy and Resources approves the proposal that rents charged in respect of Hampshire County Council dwellings let to staff and other tenants be increased by 2.5% with effect from 1 April 2019.

2. Executive Summary

2.1. The purpose of this paper is to consider the appropriate level of rents to be charged in respect of Hampshire County Council's housing accommodation with effect from 1 April 2019.

2.2. This paper seeks to

- Provide details of the nature of the residential estate.
- Confirm the policies for the annual review of rents.
- Set out recent trends in rental levels in both the public and private sectors.
- Propose an increase in rent for the affected properties of 2.5%

2. Background

2.1. The County Council currently owns a total of 82 dwellings. This compares to a figure of 86 dwellings one year ago and 110 dwellings five years ago. There continues to be a steady reduction in numbers each year, reflecting the County Council's policy to dispose of dwellings where feasible, or convert for operational use.

2.2. The 82 dwellings currently owned can be categorised as follows:

Type of Accommodation	2017	Current
-----------------------	------	---------

Surplus and occupied by secure tenants	16	14
Occupied by service tenants (mainly school caretakers)	14	14
Included with lettings of County Farms	43	42
Let temporarily pending re-use or sale	6	6
Vacant (uninhabitable) pending re-use	2	1
Vacant and being sold	5	5
Total	86	82

2.3. The secure tenants, service tenants and some temporary tenants, pay rent based on an adopted rent assessment system which was developed to provide a mechanism for applying fair rents across the whole Estate. The average monthly rent paid by these tenants is around £565. The County Council's policy has been to review rents under the assessment system each April.

2.4 In undertaking the review, consideration is given to changes in market values over the preceding period, any changes in rental levels in the public sector and the nature of the stock of the County Council's housing accommodation. In recent years, rents charged by the Council have been increased by between 3% and 5% each year, with the average annual increase being around 4%.

3. Rental Trends

3.1. Rental levels in the private sector have seen a modest rise over the past twelve months. Demand for accommodation continues to exceed supply, with many smaller scale landlords continuing to leave the market and sell up. This reflects the tax changes which were introduced to make Buy-to-let less attractive, and the trend is expected to continue. Economic uncertainty and the lack of adequate funds also mean less people buying residential property and renting accommodation instead. The increases across Hampshire have varied, but on average rises of around 2.5% have occurred. This level of increase is supported by a number of regional surveys and market reports.

3.2. The setting of rents in the public sector for housing associations and housing authorities has for many years been determined by government policy. Since April 2016, the Government has required housing associations to cut rents by 1% a year and this is expected to continue until 2020. This change was made with the specific aim of reducing the Country's expenditure on housing benefit.

3.3. By comparison, the latest figures for the Consumer Prices Index show a 2.7% increase over the past 12 months.

4. Proposals

4.1. It is proposed that the level of rents charged for County Council residential properties with effect from April 2019 be increased by 2.5%. This equates to an average increase for each tenant of around £14 per month. The proposed percentage increase is in line with rises seen over the past year in the private rented sector, and reflects the need for the County Council to receive income to enable the properties to be maintained. It is considered that an increase at 2.5% will maintain County Council rents at an affordable level.

5. Consultation and Equalities

5.1. There has been no formal consultation undertaken with regard to the proposal in this report, and no material equality impacts have been identified.

IMPACT ASSESSMENTS:

1. Equality Duty

1.1. The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited under the Act;
- Advance equality of opportunity between persons who share a relevant protected characteristic (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, gender and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- a) The need to remove or minimise disadvantages suffered by persons sharing a relevant characteristic connected to that characteristic;
- b) Take steps to meet the needs of persons sharing a relevant protected characteristic different from the needs of persons who do not share it;
- c) Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity which participation by such persons is disproportionately low.

1.2 Equalities Impact Assessment:

The proposal relates to an increase in rental levels for all County Council tenants where rents are assessed under the adopted Points Assessment System. All affected tenants are either existing members of staff or former members of staff or their families. Whilst the rental increase will have a small financial impact on all tenants, it is appropriate that annual inflationary increases are implemented in line with other landlords. The only category of persons which might be particularly relevant to the proposal relates to age, as the average age of County Council tenants is relatively high. The increase however is only of an inflationary nature and tenants who are so entitled already claim housing benefit.

2. Impact on Crime and Disorder:

2.1. The County Council has a legal obligation in Section 17 of the Crime and Disorder Act 1998 to consider the impact of all the decisions it makes on the prevention of crime. The proposal contained in this report has no impact on the prevention of crime.

3. Climate Change:

3.1. The potential impact of this proposal on climate change has been considered and no impact has been identified.
