

Appendix One

Ambition 1:	Climate resilient places
Strategic objective	
1.1	Between now and 2050 the nation will be resilient to future flood and coastal risks. Over the next year the Environment Agency will work with partners to explore and develop the concept of standards for flood and coastal resilience.
1.2	Between now and 2050 risk management authorities will help places plan and adapt to flooding and coastal change across a range of climate futures.
1.3	Between now and 2030 all those involved in managing water will embrace and embed adaptive approaches to enhance the resilience of our environment to future flooding and drought.
1.4	Between now and 2030 risk management authorities will enhance the natural, built and historic environments so we leave it in a better state for the next generation.
1.5	Between now and 2030 risk management authorities will use funding and financing from new sources to invest in making the nation resilient to flooding and coastal change.
Ambition 2:	Today's growth and infrastructure – resilient to tomorrow's climate
Strategic objective	
2.1	Between now and 2030 all new development will contribute to achieving place based resilience to flooding and coastal change.
2.2	Between now and 2030 all new development will seek to support environmental net gain in local places.
2.3	Between now and 2030 all risk management authorities will contribute positively to local economic regeneration and sustainable growth through their investments in flooding and coastal change projects.
2.4	Between now and 2050 places affected by flooding and coastal change will be 'built back better' and in better places.
2.5	Between now and 2030 all flooding and coastal infrastructure owners will understand the responsibilities they have to support flood and coastal resilience in places.
2.6	Between now and 2050 the Environment Agency and risk management authorities will work with infrastructure providers to ensure all infrastructure investment is resilient to future flooding and coastal change.
Ambition 3:	A nation of climate champions, able to adapt to flooding and coastal change through innovation.
Strategic objective	
3.1	Between now and 2030 young people at 16 should understand the impact of flooding and coastal change, but also recognise the potential solutions for their place, and opportunities for career development.
3.2	Between now and 2030 people will understand the potential impact of flooding and coastal change on them and take action.
3.3	Between now and 2030 people will receive a consistent and coordinated level of support from all those involved in response and recovery from flooding and coastal change.
3.4	Between now and 2030 the nation will be recognised as world leader in managing flooding and coastal change, as well as developing and attracting talent to create resilient places.
