## Summary

5. Proposals that are considered to be substantial in nature will be subject to formal public consultation. The nature and scope of this consultation should be discussed with the Committee at the earliest opportunity.
6. The response of the Committee will take account of the Framework for Assessing Substantial Change and Variation in Health Services (version agreed at January 2018 meeting). This places particular emphasis on the duties imposed on the NHS by Sections 242 and 244 of the Health and Social Care Act 2006, includes new responsibilities set out under the Health and Social Care Act 2012, and takes account of key criteria for service reconfiguration identified by the Department of Health.
7. This Report is presented to the Committee in three parts:
  - a. *Items for action:* these set out the actions required by the Committee to respond to proposals from the NHS or providers of health services to substantially change or vary health services.
  - b. *Items for monitoring:* these allow for the monitoring of outcomes from substantial changes proposed to the local health service agreed by the Committee.
  - c. *Items for information:* these alert the Committee to forthcoming proposals from the NHS to vary or change services. This provides the Committee with an opportunity to determine if the proposal would be considered substantial and assess the need to establish formal joint arrangements
8. This report and recommendations provide members with an opportunity to influence and improve the delivery of health services in Hampshire, and to support health and social care integration, and therefore assist in the delivery of the Joint Health and Wellbeing Strategy and Corporate Strategy aim that people in Hampshire live safe, healthy and independent lives.

## Items for Monitoring

9. **Integrated Primary Care Access Service**

### *Context*

10. A written notification was sent out in May regarding GP extended access service being piloted across the Fareham and Gosport and South Eastern Hampshire CCG areas. An email update followed due to the decision to vary the initial hub plan as a result of building works and the Fareham and Gosport weekend hub has been moved to Fareham Community Hospital.

### *Recommendations*

11. That the Committee:
  - a. Note the update and current challenges as well as any recorded issues addressed and/or resolved
  - b. Note whether the proposed change is in the interest of the service users affected
  - c. Request a further update for January 2020
12. **Proposed Changes to the Mental Health Crisis Teams Across Solent HHS and Southern Health for PSEH**

### *Context*

13. Leading representatives from Hampshire's two mental health trusts, two local authorities, commissioners and other partners have agreed to a change in their approach to improving the delivery of mental health services by bringing together two NHS mental health trusts in partnership to deliver a single service. This proposal seeks to extend the offer of Crisis Support and Home Treatment to a wider population of people, by allowing self-referral to the service when individuals self-define being in crisis. The service will also be newly available to carers.

### *Recommendations*

14. That the Committee:
  - a. Note the update on the phased implementation starting from summer 2019.
  - b. Determine if and when a further update is necessary.

## **EQUALITIES IMPACT ASSESSMENT:**

### **1. Equality Duty**

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

### **2. Equalities Impact Assessment:**

This is a covering report which appends reports under consideration by the Committee, therefore this section is not applicable to this covering report. The Committee will request appropriate impact assessments to be undertaken should this be relevant for any topic that the Committee is reviewing.
