

HAMPSHIRE COUNTY COUNCIL

Report

Committee:	Health and Adult Social Care Select Committee
Date of Meeting:	4 March 2020
Report Title:	Proposals to Develop or Vary Services
Report From:	Director of Transformation & Governance

Contact name: Members Services

Tel: (01962) 845018 **Email:** members.services@hants.gov.uk

Purpose

1. The purpose of this report is to alert Members to proposals from the NHS or providers of health services to vary or develop health services provided to people living in the area of the Committee. At this meeting the Committee is receiving updates on the following topics:
 - a. Orthopaedic Trauma Modernization Pilot (Hampshire Hospitals Foundation Trust)
 - b. Spinal Surgery Service Implementation Update (University Hospital Southampton)

Summary

2. Proposals that are considered to be substantial in nature will be subject to formal public consultation. The nature and scope of this consultation should be discussed with the Committee at the earliest opportunity.
6. The response of the Committee will take account of the Framework for Assessing Substantial Change and Variation in Health Services (version agreed at January 2018 meeting). This places particular emphasis on the duties imposed on the NHS by Sections 242 and 244 of the Health and Social Care Act 2006, includes new responsibilities set out under the Health and Social Care Act 2012, and takes account of key criteria for service reconfiguration identified by the Department of Health.

7. This Report is presented to the Committee in three parts:
 - a. *Items for action:* these set out the actions required by the Committee to respond to proposals from the NHS or providers of health services to substantially change or vary health services.
 - b. *Items for monitoring:* these allow for the monitoring of outcomes from substantial changes proposed to the local health service agreed by the Committee.
 - c. *Items for information:* these alert the Committee to forthcoming proposals from the NHS to vary or change services. This provides the Committee with an opportunity to determine if the proposal would be considered substantial and assess the need to establish formal joint arrangements
8. This report and recommendations provide members with an opportunity to influence and improve the delivery of health services in Hampshire, and to support health and social care integration, and therefore assist in the delivery of the Joint Health and Wellbeing Strategy and Corporate Strategy aim that people in Hampshire live safe, healthy and independent lives.

Items for Monitoring

The recommendations for each topic are also given under the relevant section below, regarding each item being considered at this meeting:

9. Orthopaedic Trauma Modernization Pilot (Hampshire Hospitals Foundation Trust)

Context

6. To ensure patients in need of significant trauma care, following an accident, receive the best possible support from clinical teams to make the best possible recovery, care will be provided 24 hours a day, 7 days a week from the Basingstoke Hospital site for all Hampshire Hospital patients. Minor trauma will continue be treated in Andover, Winchester and Basingstoke. An elective centre of excellence for large operations such as hip and knee replacements would be provided at the Royal Hampshire County Hospital in Winchester. An update is being provided by the Trust, following the presentation at the September 2019 meeting.

Recommendations

10. That the Committee:
 - Note the implementation update, engagement data, and current challenges as well as any recorded issues addressed and/or resolved
 - Determine if and when a further update is necessary.

11. **Spinal Surgery Service Implementation Update (University Hospital Southampton)**

Context

12. The HASC received an update at the May 2019 meeting regarding the implementation of the service transfer from Portsmouth Hospitals NHS Trust (PHT) to University Hospital Southampton NHS Foundation Trust (UHS). UHS provided an update at the September 2019 meeting, reporting on specific patient feedback or concerns, as Members previously drew attention to the difficult nature of recovery from surgery. A new update is now being provided addressing staffing and wait times.

Recommendations

13. That the Committee:
 - Note the progress update and current operational challenges as well as any recorded issues addressed and/or resolved
 - Determine if and when a further update is necessary

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

This is a covering report which appends reports under consideration by the Committee, therefore this section is not applicable to this covering report. The Committee will request appropriate impact assessments to be undertaken should this be relevant for any topic that the Committee is reviewing.
