1. Summary and Purpose

- 1.1. This report provides Members with information about the issues brought to the attention of the Committee which impact upon the planning, provision and/or operation of health services within Hampshire, or the Hampshire population.
- 1.2. Where appropriate comments have been included and copies of briefings or other information attached.
- 1.3. Where scrutiny identifies that the issue raised for the Committee's attention will result in a variation to a health service, this topic will be considered as part of the 'Proposals to Vary Health Services' report.
- 1.4. New issues raised with the Committee, and those that are subject to on-going reporting, are set out in Table One of this report.
- 1.5. The recommendations included in this report support the Strategic Plan's aims of supporting people to live safe, healthy and independent lives, and to enjoy being part of strong, inclusive communities, through the overview and scrutiny of health services in the Hampshire County Council area.

| Topic | Relevant Bodies | Action Taken | Comment |
|--|---|---|--|
| Care Quality Commission (CQC) re-inspection of services <i>(Monitoring items)</i> | Portsmouth Hospitals Trust (PHT) CCGs and partner organisations CQC | Follows on from original CQC inspection in February 2015 (with re-inspections in February and March 2016 , and September 2016), The HASC has monitored this item since this time – last reviewed January 2017 . The most recent CQC report on PHT is attached as Appendix 1. | The CQC's remit was, amongst others, to make sure that the improvements required by previous inspections had been made. The CQC carried out a responsive focused inspection of the corporate and leadership functions of Portsmouth Hospital NHS Trust on 10 and 11 May 2017, inspecting the key question of 'well led'. Following the inspection of Queen Alexandra Hospital in May 2017, the CQC has served further action under Section 31 to protect vulnerable patients from immediate risks of harm. Details of these notices are included at the end of the report. Full report and commentary: http://www.cqc.org.uk/provider/RHU/reports |

Recommendations:

That Members:

- a. Note the update from the Trust, and consider what steps the Committee should take in response to the findings of the re-inspection report.
- b. Determine a suitable date to further consider progress made against the recommendations of the Care Quality Commission report.
- c. Make any further recommendations as appropriate.

IMPACT ASSESSMENTS:

1. Equality Duty

1.1 The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited under the Act;
- Advance equality of opportunity between persons who share a relevant protected characteristic (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, gender and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- a) The need to remove or minimise disadvantages suffered by persons sharing a relevant characteristic connected to that characteristic;
- b) Take steps to meet the needs of persons sharing a relevant protected characteristic different from the needs of persons who do not share it;
- c) Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity which participation by such persons is disproportionately low.

1.2 **Equalities Impact Assessment:** This is a covering report for items from the NHS that require the attention of the HASC. It does not therefore make any proposals which will impact on groups with protected characteristics.

2 Impact on Crime and Disorder:

2.1 This paper does not request decisions that impact on crime and disorder

3 Climate Change:

3.1 How does what is being proposed impact on our carbon footprint / energy consumption?

3.2 How does what is being proposed consider the need to adapt to climate change, and be resilient to its longer term impacts?

No impacts have been identified.
