

REPORT OF THE  
**Executive Member for Education and Skills**  
PART II

**1. EXPANSION OF OSBORNE SCHOOL ON THE SITE OF KINGS' SCHOOL**

- 1.1. On 16 September 2020 the Executive Member for Education and Skills granted spend approval to the project proposals for the expansion of Osborne School, in a new satellite provision on the nearby site of Kings' Secondary School in Winchester at a total cost of £1,583,000.
- 1.2. Osborne School is a maintained special school for pupils with learning disabilities aged 11 to 19 with a capacity for 197 pupils. This project will make permanent the increase in capacity by 20 places to 217 pupils through the provision of a separate satellite facility for Osborne School pupils located on the Kings' Secondary mainstream school site. These additional places are being provided as a satellite provision on the Kings' School site as the existing Osborne School site has insufficient space to accommodate these additional pupils places and to also enable integration and access to the Kings' secondary curriculum.
- 1.3. Kings' School will remain in use during the construction period and local management arrangements will be put in place to manage the health and safety impact for all school users. The project will also incorporate features to reduce energy consumption and mitigate the impact of climate change.
