1. Role of Internal Audit

The requirement for an internal audit function in local government is detailed within the Accounts and Audit (England) Regulations 2015, which states that a relevant body must:

‘Undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.’

The standards for ‘proper practices’ are laid down in the Public Sector Internal Audit Standards [the Standards – updated 2017].

The role of internal audit is best summarised through its definition within the Standards, as an:

‘Independent, objective assurance and consulting activity designed to add value and improve an organisations’ operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes’.

The County Council is responsible for establishing and maintaining appropriate risk management processes, control systems, accounting records and governance arrangements. Internal audit plays a vital role in advising the Council that these arrangements are in place and operating effectively.

The County Council’s response to internal audit activity should lead to the strengthening of the control environment and, therefore, contribute to the achievement of the organisations’ objectives.

2. Purpose of report

In accordance with proper internal audit practices (Public Sector Internal Audit Standards), and the Internal Audit Charter the Chief Internal Auditor is required to provide a written status report to ‘Senior Management’ and ‘the Board’, summarising:

- The status of ‘live’ internal audit reports;
- an update on progress against the annual audit plan;
- a summary of internal audit performance, planning and resourcing issues; and
- a summary of significant issues that impact on the Chief Internal Auditor’s annual opinion.

Internal audit reviews culminate in an opinion on the assurance that can be placed on the effectiveness of the framework of risk management, control and governance designed to support the achievement of management objectives of the service area under review.

CIPFA have recently released a paper which examined the case for standardising the terminology and definitions used in internal audit engagements across the whole of the public sector and has subsequently recommended a standard set of opinions and supporting definitions for internal audit service providers to use. To ensure we continue to conform to the best practice principles, we will be adopting the standard definitions for our 2020-21 work and moving forwards. The assurance opinions are categorised as follows:

Substantial	A sound system of governance, risk management and control exists, with internal controls operating effectively and being consistently applied to support the achievement of objectives in the area audited.
Reasonable	There is a generally sound system of governance, risk management and control in place. Some issues, non-compliance or scope for improvement were identified which may put at risk the achievement of objectives in the area audited.
Limited	Significant gaps, weaknesses or non-compliance were identified. Improvement is required to the system of governance, risk management and control to effectively manage risks to the achievement of objectives in the area audited.
No	Immediate action is required to address fundamental gaps, weaknesses or non-compliance identified. The system of governance, risk management and control is inadequate to effectively manage risks to the achievement of objectives in the area audited.

3. Performance dashboard

Compliance with Public Sector Internal Audit Standards

An External Quality Assessment of the Southern Internal Audit Partnership was undertaken by the Institute of Internal Auditors (IIA) in September 2020. The report concluded:

'The mandatory elements of the IPPF include the Definition of Internal Auditing, Code of Ethics, Core Principles and International Standards. There are 64 fundamental principles to achieve with 118 points of recommended practice. We assess against the principles.

It is our view that the Southern Internal Audit Partnership conforms to all 64 of these principles.

We have also reviewed SIAP conformance with the Public Sector Internal Audit Standards (PSIAS) and Local Government Application Note (LGAN).

We are pleased to report that SIAP conform with all relevant, associated elements.'

4. Analysis of ‘Live’ audit reviews

All actions arising from audit reviews have been completed/implemented. There are no pending or overdue actions to report.

5. Executive Summaries of reports published concluding a ‘Limited’ or ‘No’ assurance opinion

There have been no ‘Limited’ or ‘No’ assurance opinion reports issued as part of the 2020-21 audit work.

6. Planning & Resourcing

The internal audit plan for 2020-21 was discussed and agreed with Officers and approved by the Hampshire Pension Fund Panel and Board on 24 July 2020. Whilst the plan remains fluid to provide a responsive service that reacts to the changing needs of Hampshire Pension Services, there have been no adjustments to the plan for 2020-21.

Progress against the plan is outlined below in section 7.
